www.akfix.com / info@akfix.com

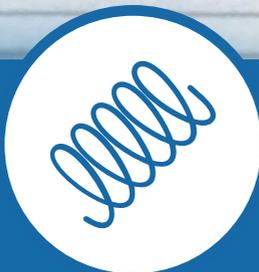

Butyl Sealant is one component sealant based on polybutene that provides an effective weatherproof seal in a variety of exterior and interior applications.

The sealant accommodates joint movement of +/- 5% and exhibits good UV and chemical resistance.

Semi drying – forms a surface skin but remain permanently elastic beneath.

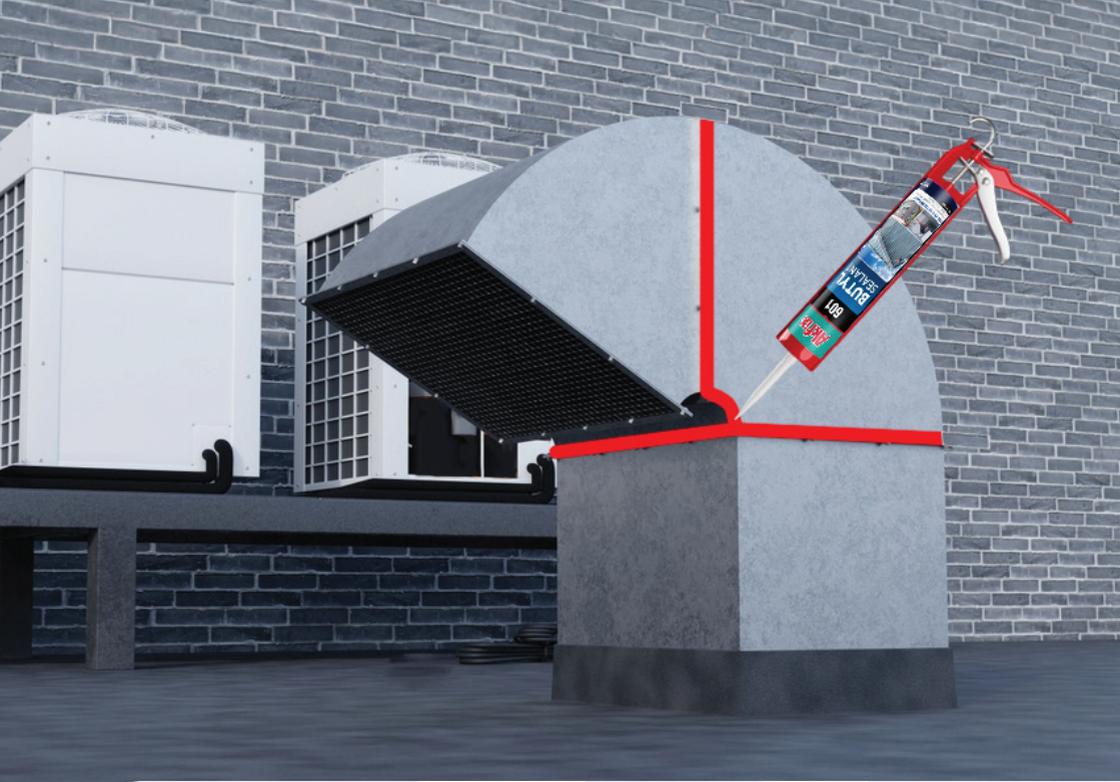

Good external weathering properties.

APPLICATION AREAS

- Curtain wall joints. • At metal panel joints.
- Suitable for joints with little movement and in areas not subject to mechanical movement.
- At the junctions of ventilation ducts.

**GOOD
ADHESION**

**RESISTANT TO
VIBRATION**

**STRONG CHEMICAL
RESISTANCE**
